THE SKILLED "COES"

The inexperienced is likely to pick up the first wrench that comes to hand,—instead of being careful to select **"Coes."**

When you're buying wrenches it pays to take the advice of the older men,—if you haven't had experience yourself. They'll tell you that **"Coes"** quality is worth paying for. It means long, reliable service and highest ultimate economy. Thirty per cent greater strength is what **"Coes"** quality means in figures.

In the **"Coes"** wrench there's strength, but no clumsiness,—individuality without freakishness. In short, it is **The Wrench Par Excellence!!**

Warranted—inspected (the **"Coes"** kind of inspection). You don't have to "land" customers for this wrench,—a wrench user will recognize its superiority at a glance.

At all good dealers

MECHANIC USES A WRENCH

You can buy the "Coes" Wrench as you would Government Bonds—without fear of depreciation or deterioration,—without the need of special sales,—always having a steady demand at the full list price.

Satisfied customers are assured, also satisfactory profits; because "Coes" are

Thirty Per Cent Stronger,—

and your customer knows it. It's this truth that sells more "Coes,"—that proves such a wonderful trade builder,—that carries the world's witness of **Wrench Perfection!**

A Million and More Is the Annual Output !!

May we send our wrench book?
